

Arctic Seafood from Northern Norway

Arena Nordland is a frequent presence at the Seafood Expo Global, thanks to the fantastic seafood from the ice-cold Arctic.

Our slogan is "Arctic Seafood from Northern Norway." Due to the extreme cold climate, agriculture alone has never been enough to support life north of the Arctic Circle. As a result, the people of Nordland have always relied on the ocean for both sustenance and seafood production. This long tradition of ocean dependence has provided us with invaluable knowledge and experience, allowing us to harvest and refine high-quality seafood in harmony with nature. Sustainability is our heritage, and it's the reason our seafood is world-class, often referred to as the Rolls Royce of seafood.

At the upcoming Seafood Expo Global, our stand will showcase a wide range of exhibitors, including those representing salmon, white fish, crabs, farmed fish, exporters, and port developers. Arena Nordland has a track record of quality and will continue to impress this year. Our exhibitors include Andfjord Salmon, Fished, Nor Seafoods, Nordlaks, Norskin, Oxidane Venture, Polar Quality, and Seafood Partners. You can also meet Gunnar Klo, Havida, Kvarøy fiskeoppdrett, Normar, Orkla Health Ocean, and Stokmarknes Miljøhavn at Arena Nordland. We are excited to be joined by the innovative startup company CapriPro.

As in previous years, Arena Nordland will feature our own chef, who will prepare delicious dishes that showcase the nuances of our seafood in a new way. We are also excited to include students from the local culinary schools in Nordland, who will join our chef in the kitchen to prepare the dishes. Together, they will highlight the rich seafood traditions of the region and share their knowledge, ensuring that the strong culinary heritage of Nordland continues to thrive.

Visit Arena Nordland at stand 501 in Hall 5.
