

FOR IMMEDIATE RELEASE

Chun Cheng Fishery to Showcase Global Seafood Supply and Processing Capabilities at Seafood Expo Asia 2026

With service presence in Singapore and Taiwan and cross-border processing partnerships across Asia, Chun Cheng will showcase its diverse seafood portfolio, processing capabilities, global supply network and private-label solutions at Booth J02.

SINGAPORE, AUGUST 2026 – Chun Cheng Fishery Enterprise Pte Ltd will participate in **Seafood Expo Asia 2026**, taking place from **2–4 September 2026** at the **Sands Expo and Convention Centre in Singapore**. Seafood importers, wholesalers, distributors and purchasing teams from around the world are invited to meet the Chun Cheng team at **Booth J02** to learn more about the company's seafood supply, processing capabilities and international business network.

Established in Singapore in 1994, Chun Cheng Fishery has grown from its roots in the fishing industry into an international company engaged in frozen seafood processing, export and distribution. Today, with **service presence in Singapore and Taiwan**, the company works closely with suppliers, processors and customers across international markets, connecting seafood resources with global demand through sourcing, processing, cold-chain management and international distribution.

A key strength of Chun Cheng is its **cross-border processing network in Asia**. Through processing cooperation with partners in **Vietnam, Thailand, Korea and Japan**, the company is able to support different product specifications, processing requirements and market needs. This network provides greater flexibility in matching raw materials, processing capabilities and customer requirements across different markets.

At Seafood Expo Asia 2026, Chun Cheng will showcase its **diverse range of frozen seafood products and processing capabilities**. With different countries and distribution channels requiring different specifications, the company offers various product formats and customized processing options to support importers, wholesalers, distributors, foodservice operators and retail buyers.

In addition to seafood supply, Chun Cheng provides **processing and private-label solutions**, offering flexibility in product specifications, processing methods and packaging according to customer requirements. By combining international sourcing, regional processing cooperation and market experience, Chun Cheng

continues to develop flexible and reliable seafood supply solutions for its customers.

With its **service presence in Singapore and Taiwan**, together with processing partnerships across **Vietnam, Thailand, Korea and Japan**, Chun Cheng continues to strengthen a business network that connects **seafood resources, processing capabilities and global market demand**. This cross-border approach enables the company to respond more flexibly to different product, processing and market requirements while building long-term partnerships throughout the seafood supply chain.

Chun Cheng welcomes **seafood importers, wholesalers, distributors, foodservice buyers and retail purchasing teams** to visit **Booth J02** to discuss seafood sourcing, customized processing, private-label opportunities and international supply partnerships.

Meet the Chun Cheng team at Booth J02, Seafood Expo Asia 2026, from 2–4 September 2026.
