

FOR IMMEDIATE RELEASE

Paraclipse Systems the manufacturer of non-toxic fly, fruit fly and mosquito control systems at North America's Largest Seafood Event, Seafood Expo North America/Seafood Processing North America

Come to booth 471 and see our latest outdoor fly unit as well as the new premium aluminum indoor unit for white tablecloth restaurants.

Columbus, Nebraska, January 19, 2024 – [Paraclipse | Insect Control Systems](#) announces a non-toxic lighted – automated, fly, fruit fly and mosquito control units for all industries at North America's largest seafood event, [Seafood Expo North America/Seafood Processing North America](#). The Expo will take place from March 10 – 12, 2024 in Boston, MA at the Boston Convention and Exhibition Center. Come see us at booth 471, so we can show you patented, US made premium flying insect control. Quiet and effective without spraying or zapping or pesticides.

Made to last in the USA and using patented technology, our systems simply catch more flies and pests without pesticides, noise, sprays, or zapping!

We are a US Manufacturer of highly effective fly, fruit fly and mosquito control units. Offering 5 different options including indoor and outdoor, and offering coverage from 1,000 sq ft to 10,000 sq ft, 120vt & 220vt. We use ultraviolet light as the main attractant, then add nontoxic fly and fruit fly attractants to the glue surface. No other fly control system has our auto advancing cartridge. Working much like 35mm camera film, the cartridge allows for thousands of flies to be caught over 30-60 days (depending on the system you choose) A motor slowly advances the cartridge each day, providing a fresh glue surface to catch more flying insects, rolling them up into the cartridge for easy disposal. We continually strive to have the best attractant and the most effective insect control available. We simply catch more flies using patented technology while being USDA/FDA compliant.

About Paraclipse Systems:

Uniquely designed and aesthetically pleasing insect control systems for flies, fruit flies and mosquitoes, made in the USA and sold all over the globe.

About Seafood Expo North America/Seafood Processing North America

Seafood Expo North America/ Seafood Processing North America is North America's largest seafood exposition. Thousands of buyers and suppliers from around the world attend the annual, three-day

exhibition to meet, network and do business. Attending buyers represent importers, exporters, wholesalers, restaurants, supermarkets, hotels, and other retail and foodservice companies. Exhibiting suppliers offer the newest seafood products, processing and packaging equipment, and services available in the seafood market. The exposition is sponsored by the National Fisheries Institute. SeafoodSource is the official media. The exposition is produced by Diversified Communications, the international leader in seafood-industry expositions and media. The exposition is produced by Diversified Communications, the international leader in seafood-industry expositions and media. For more information, visit: www.seafoodexpo.com/north-america.
